## 17 YEARS OF LIONS YOUTH EXCHANGE IN ESTONIA

The tradition of Estonian YE and camp began in 1994. Since then we have hosted hundreds young campers from all over the world. The arrangement of the camp has been quite similar: after 10 days of stay at an Estonian family they come to South-Estonia where our way of living is being showed and practised. The themes that we touch through the camps have been for example culture, economy, traditions. During the time campers spend here, they visit different historical places, industries and cultural events. Quite important is also the camp life at campsite. In the course of years special programs have developed that are now traditional to the camp.
